HIGHLIGHTS

What's new this season?

To apply for or obtain a cougar limited entry permit, harvest objective permit, or pursuit permit, you must possess a valid Utah hunting or combination license.

New application procedure: New in 2007, if you want to apply for a limited entry cougar permit you **MUST** apply online at wildlife.utah.gov beginning September 20, 2007 at 8:00 a.m. and ending at 11:00 p.m. on October 4, 2007. Applying online is quick and easy, but if you have questions call (801) 538-4700. Phone-in applications will be accepted until 5:00 p.m. on October 4, 2007. American Express, Discover, MasterCard and VISA credit and debit cards are the only accepted methods of payment. Drawing results will be available by November 6, 2007.

Split unit opportunities: Again this season limited entry permits on split units will become valid statewide harvest objective permits if hunters do not fill their tags during the limited entry season on split units. This means hunters will be able to continue to hunt on open harvest objective units, while abiding by all harvest objective unit rules such as closures. This change does not allow hunters to harvest more than one cougar. See Section XX.A, Taking Restrictions, on page 23 for more information.

Closures available by noon: Harvest objective unit closures will be posted on the cougar hotline and at wildlife.utah.gov/cougar by noon daily. Closures will take effect the following day. The cougar hotline number is 1-888-668-LION (5466).

Poaching-reported reward permits are now available to any eligible person who reports a cougar poaching incident on a limited-entry cougar unit. Individuals will be eligible to receive

a limited entry cougar permit if charges are filed in the case. See page 24 for details.

Season dates: Season dates and hunt strategies change regularly. Please see the tables on page 25–28 for details.

Your wait is over: If you obtained a limited entry cougar permit for 2003–2004 season, your waiting period is over and you're now eligible to apply again.

Also remember

Youth hunters: A person 12 years of age or older may apply for or obtain a permit to take or pursue cougars. A person 11 years of age may apply for or obtain a permit to take or pursue cougars if that person's 12th birthday falls within the calendar year in which the permit is purchased.

Purchase harvest objective permits:

Harvest objective permits may be purchased beginning November 7, 2007, at wildlife.utah.gov, from license agents and at any Division office. Hunters who purchase a harvest objective permit may hunt on any harvest objective unit in the state that's still open to hunting.

License suspension: The Division has the authority to suspend hunting, fishing, and trapping privileges for wildlife violations. Notification of such action is served only after criminal proceedings have been concluded. Any Utah order of suspension may be recognized by other states participating in the Wildlife Violator Compact.

Make a difference: You can get involved in the decision-making process regarding Utah wildlife management, rules and regulations by attending your local Regional Advisory Council (RAC) meetings. For more information on the RACs and schedules, visit wildlife.utah.gov/public_meetings.

Private lands: While taking wildlife or engaging in wildlife-related activities, a person may not,

without the written permission of the owner or person in charge, enter upon privately owned land that is cultivated or properly posted. "Cultivated land" means land which is readily identifiable as:

1) land whose soil is loosened or broken up for the raising of crops; 2) land used for the raising of crops; or 3) pasturage which is artificially irrigated. The Division cannot guarantee access to any private land. If you plan to hunt in an area that is made up of all or mostly private lands, please remember to obtain WRITTEN permission from the landowner or an authorized representative of the landowner.

Protection from discrimination: The Division receives Federal financial assistance from the U.S. Fish and Wildlife Service. Under Title VI of the Civil rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, the U.S. Department of the Interior and its bureaus prohibit discrimination on the basis of race, color, national origin, age, disability or sex. If you believe that you have been discriminated against in any program, activity or facility, or if you desire further information please write to:

RESPONSIBLE OHV USE

Since more and more sportsmen are making use of off-highway vehicles (OHV) while hunting, Utah State Parks wants to remind riders of the importance of education and helmet use.

Properly fastened helmets, having at least a U.S. Department of Transportation approved safety rating for motorized use, are required for all OHV operators and passengers under the age of 18. Additionally, Utah law requires that OHV operators ages eight to 15 possess an OHV education certificate in order to legally operate a machine on public land (operators 16 years of age and older must have a driver's license or an OHV education certificate). It is illegal for any child under age eight to operate an OHV on public land.

Education classes play an important role in injury prevention by teaching young riders and their parents about safe riding, weight distribution, handling, shifting, speed, and riding within your ability.

**For OHV education,
registration and safety
information visit
stateparks.utah.gov or call
1-800-OHV-RIDE.**

PROTECT WILDLIFE HABITAT

Use of certified noxious weed-free hay and straw is required on all Federal and State Trust Lands. Vehicles, ATVs and trailers should be weed-free upon entering these lands. Report weed infestations to local land management office.

Contact your County Extension Agent for weed-free alternatives and available sources or go to <http://ag.utah.gov> - > *Weed Free Hay*

THIS IS A COOPERATIVE PROGRAM BETWEEN:

An abandoned mine may look like a ready-made adventure. Don't be fooled. More often than not an abandoned mine promises only injury or death. Cave-ins, toxic gases, dangerous snakes and other animals, deep vertical shafts and undetonated explosives can cost you your life. There are an estimated 20,000 abandoned mines scattered across Utah. If you come across one, heed our advice—stay out and stay alive!
